重点：如果安装软件过程中出现上图界面，（一般新买的电脑，或者重装系统后会出现）

1 打开控制面板 -- 程序和功能 -- 启用或者关闭WINDOWS 功能

如果上图的下载被禁止 需要以下设置

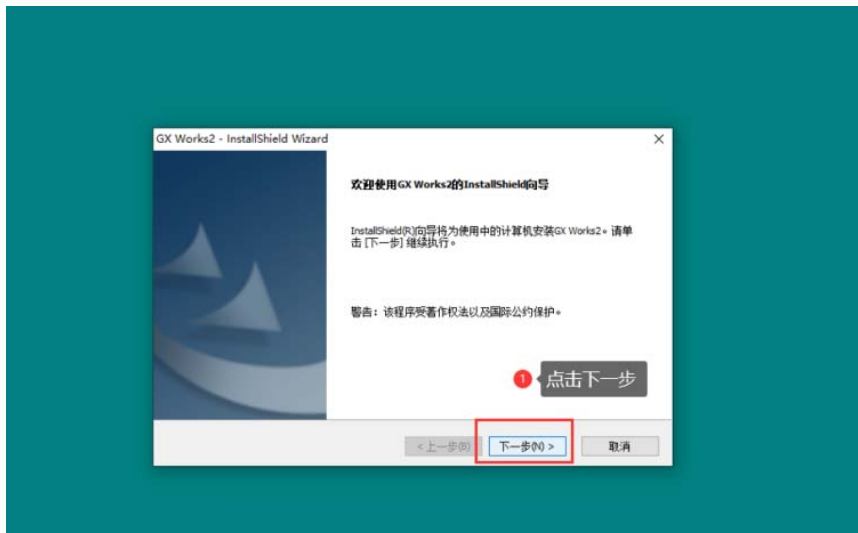

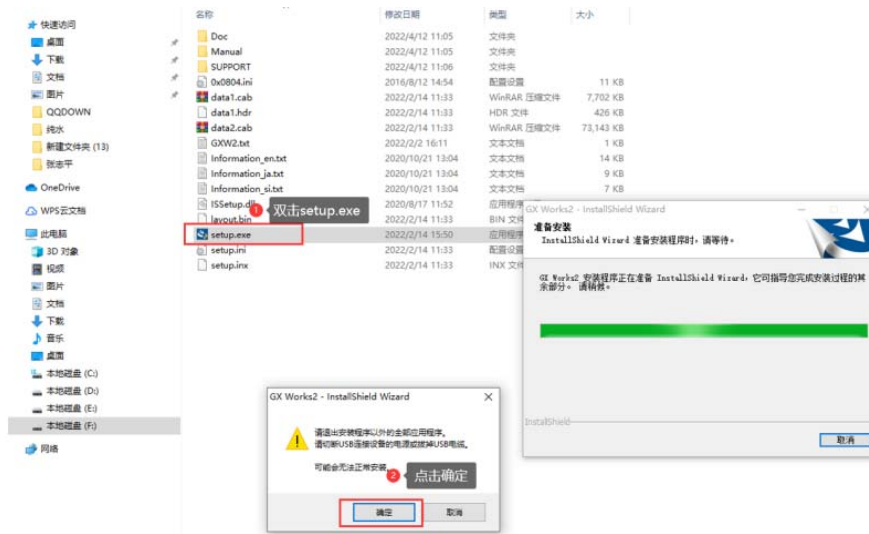

安装前，安装路径尽量使用英文，关闭杀毒软件。建议 WIN10 专业版系统，WIN7 系统容易各种报错等。

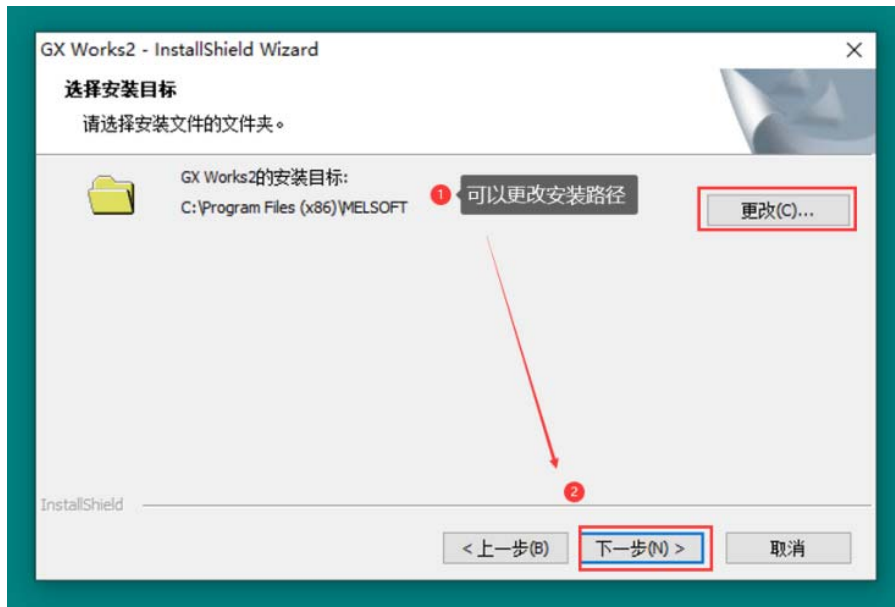

2, 解压后的文件

打开 Disk1 文件夹后，如下图

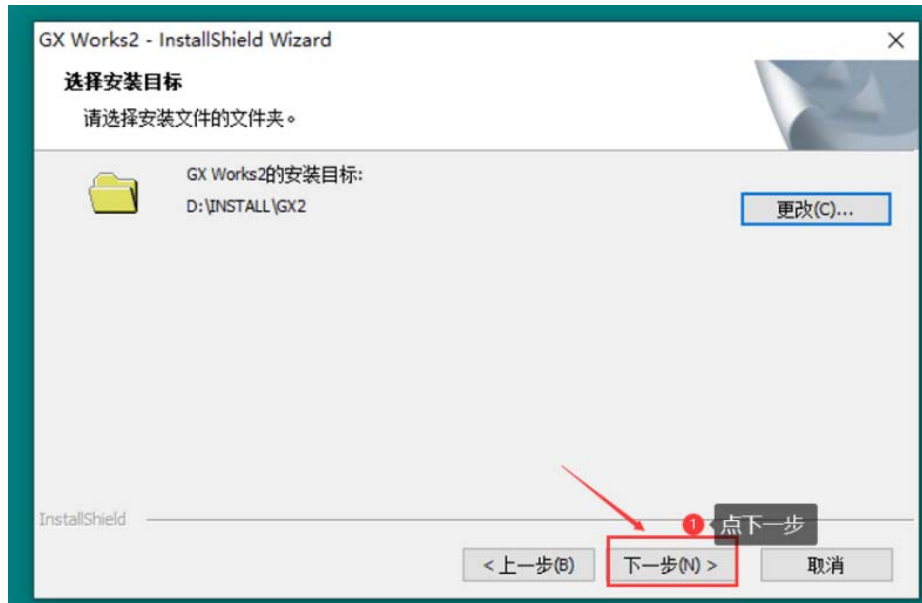

序列号有以下，都可以使用

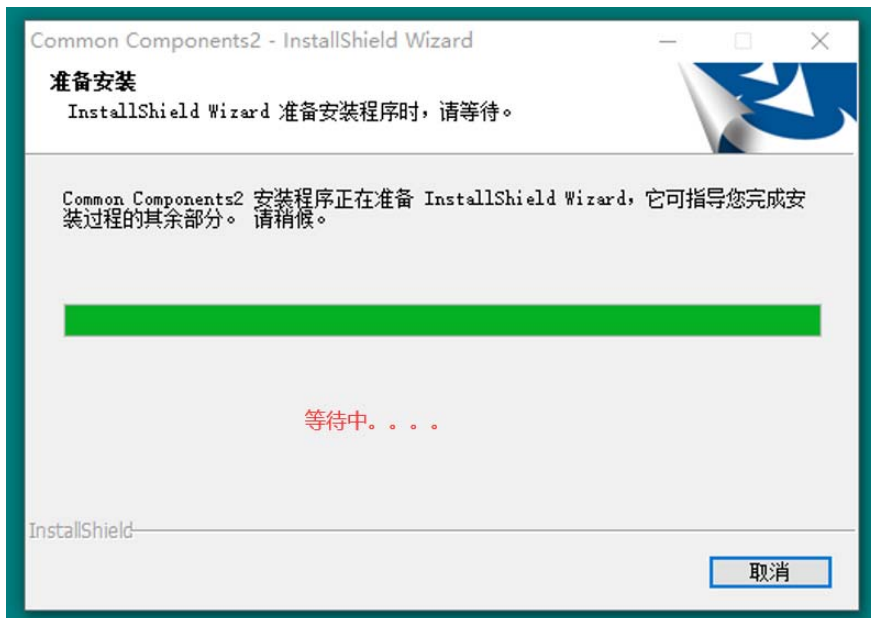

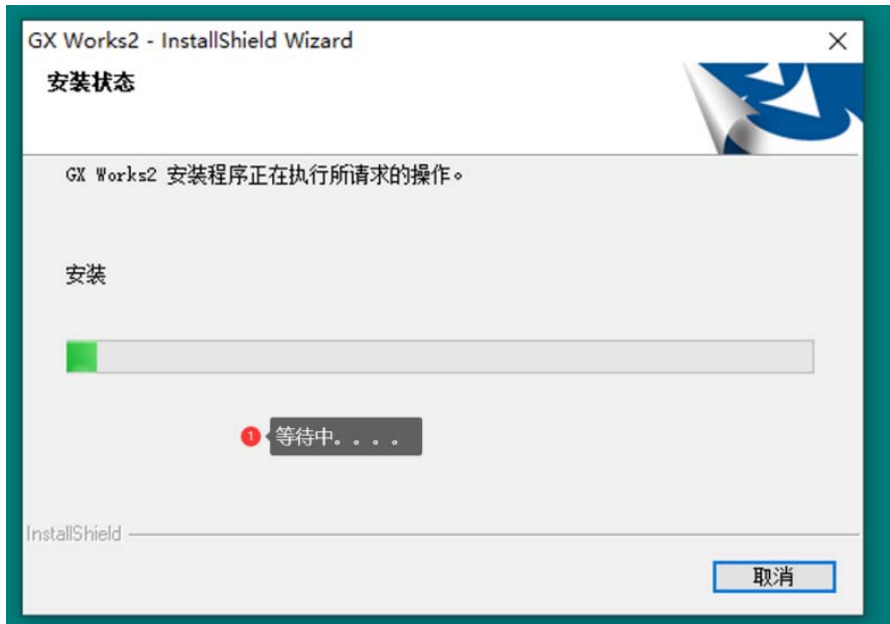

917-505764844	570-986818410
070-360817410	017-360767844
161-998941269	570-986818410
904-099559933	917-500761844

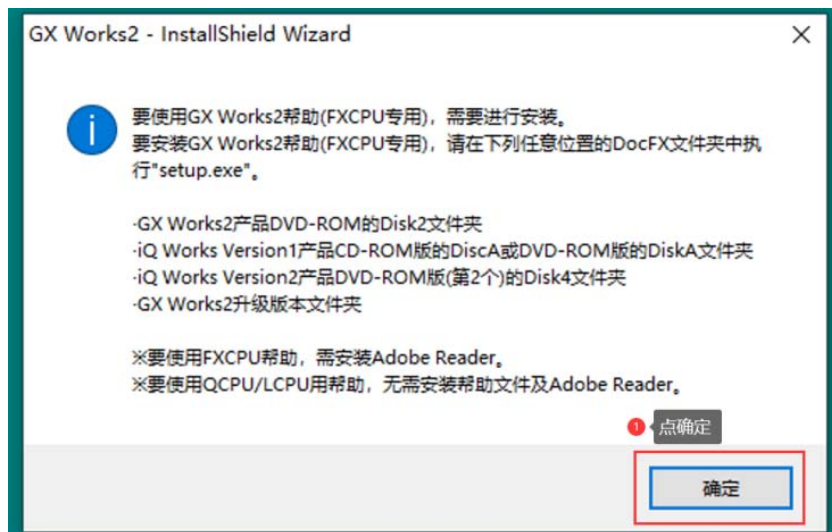

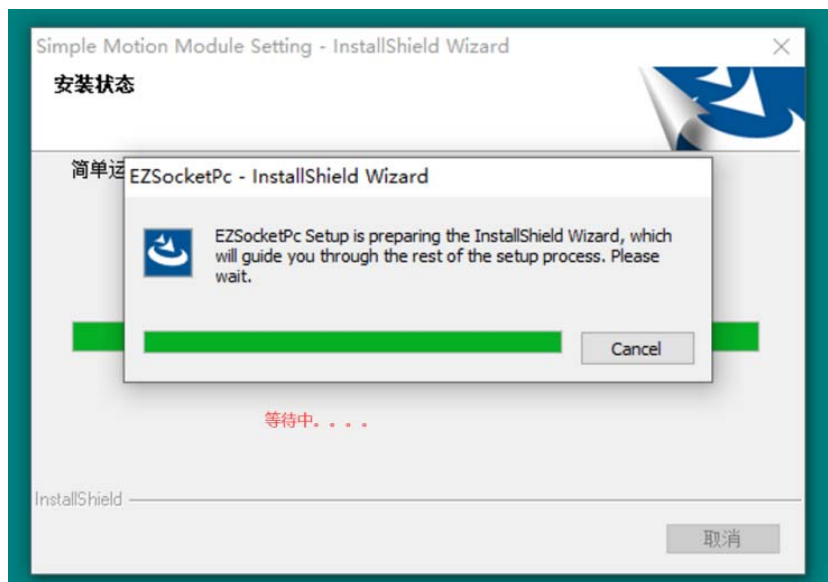

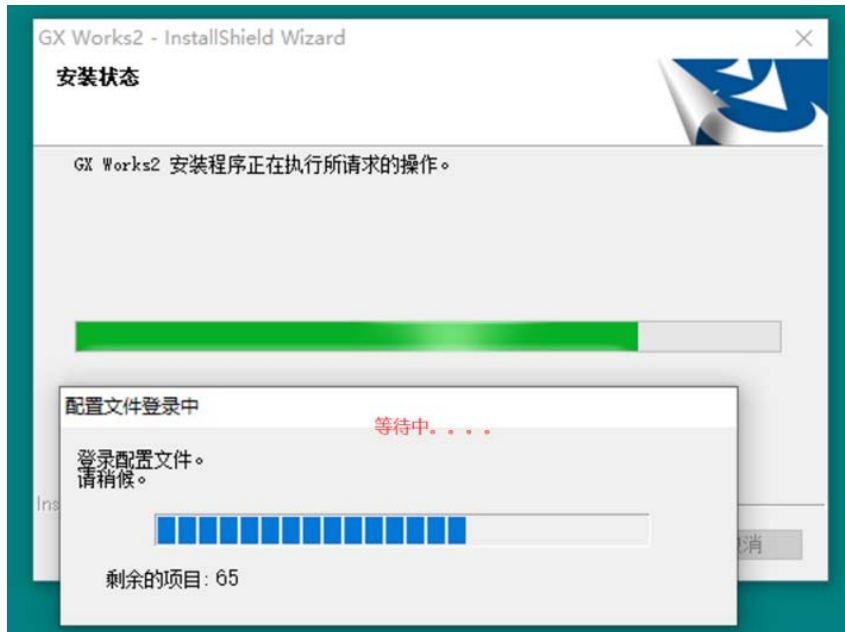

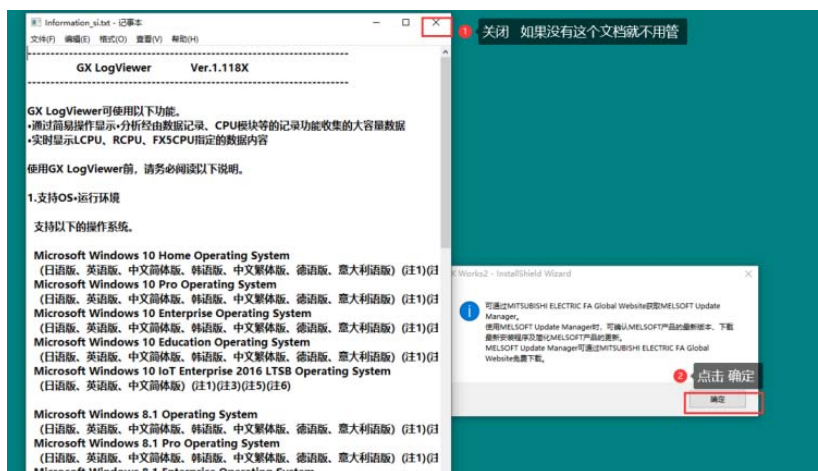

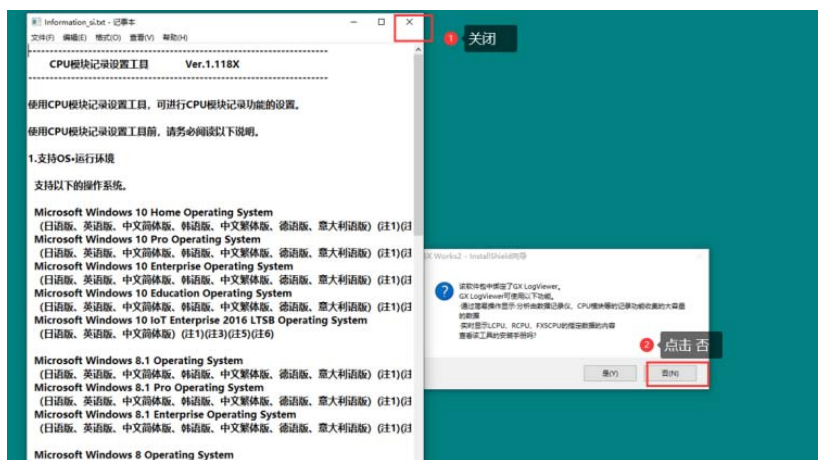

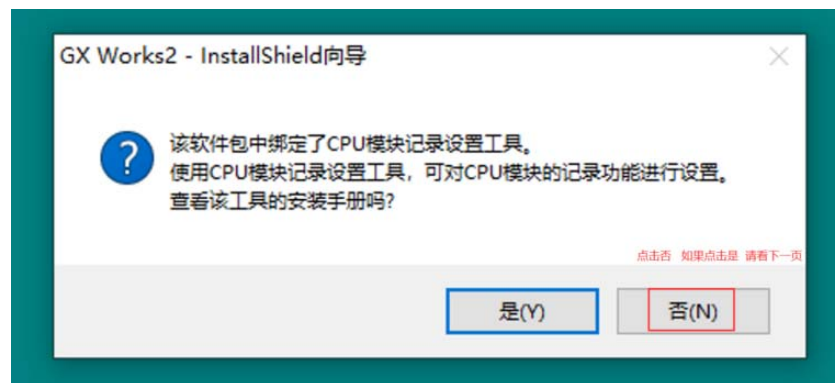

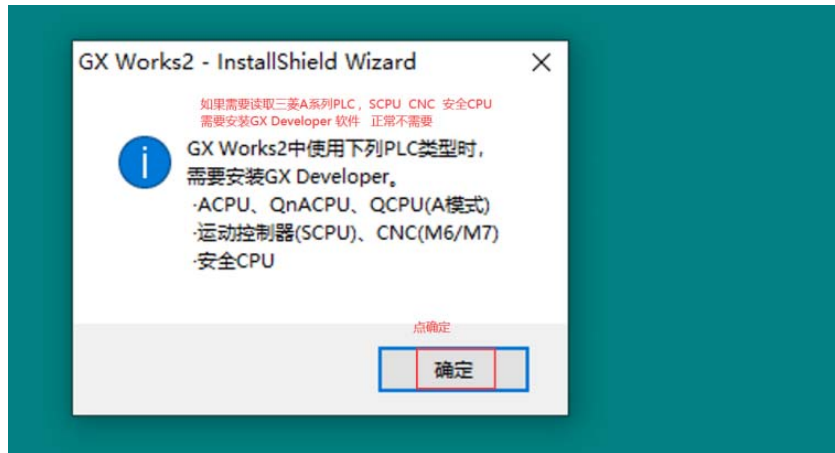

如果默认路径 直接点击下一步

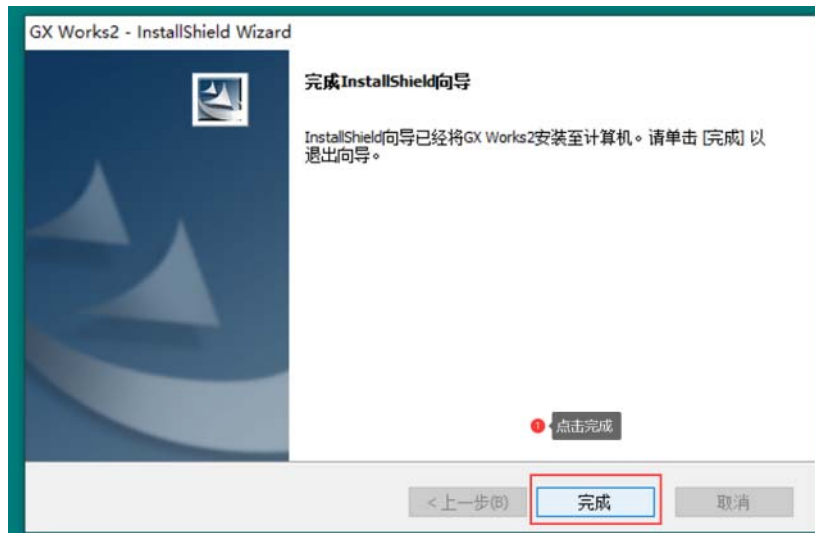

安装完成后，可以新建工程，写个简单的程序仿真一下，三菱软件自带仿真功能。
